NISSO HOLDINGS Receives a "B-" score for 2nd Consecutive Year in CDP 2025 "Climate Change" Category

NISSO HOLDINGS Co., Ltd. is pleased to announce that for the second consecutive year, it has received a "B-" score, a management-level score in the climate change category from CDP, an international non-profit organization that operates the world's only independent environmental information disclosure system, in recognition of the Nisso Group's (hereinafter, the "Group") climate change initiatives and information disclosure.

CDP applies a rigorous and independent methodology to evaluate disclosure quality, risk awareness, environmental management, and evidence of best practice. Scores range from A to D-, reflecting the degree of ambition, target-setting and action.

The Group recognizes that responding to climate change, which is essential for the survival of its business, is an important management issue. In order to reduce GHG emissions, one of the causes of global warming, the Group is transforming its business operations into more energy-efficient ones, such as introducing renewable energy and switching to hybrid vehicles.

Furthermore, by fostering environmental awareness among employees and encouraging active participation in energy conservation and recycling in daily operations, the Group aims to build a resilient corporate group capable of adapting to social change.
