1. Qualitative Information on Quarterly Financial Results

(1) Description of Results of Operations

Although Japan's economy during the current consolidated cumulative third quarter (hereinafter, the "period under review") remained in harsh conditions due to the spread of the new coronavirus infections (hereinafter, "COVID-19 infections"), economic activity has been recovering recently. On the other hand, it is necessary to pay close attention to the effects of the downward risks of economic activity and fluctuations in financial and capital markets associated with the spread of COVID-19 infections overseas.

As for the business environment surrounding the Nisso Group (hereinafter, the "Group"), production of transportation equipment (mainly automobiles) has been steady at domestic manufacturers, who are important clients, and the production of electronic components and devices has been increasing moderately due to increased demand for IT as a result of changes in 5G and work-styles. Also, in terms of employment conditions, there have been signs of firmness in developments such as the number of employed persons, and some manufacturers of NISSO CORPORATION's (hereinafter, the "Company") clients have seen improvements in their needs for utilizing external human resources.

In this environment, based on its founding philosophy of "Nurturing and Bringing Out the Best in People", the Group will continue to implement the following initiatives in order to achieve the enhancement of corporate value, with the aim of creating workplaces where workers can gain a sense of fulfillment and flourish, as well as providing services that can contribute to its growth as a company.

In the period under review, in manufacturing-related human resources services, the Group's core business, the Company has been actively developing human resources by utilizing its own educational facilities in order to improve the skills and the retention rate of manufacturing staff, under the strategy of focusing on the assignment of "skilled staff", who are indefinite-term employees, to Account Companies, who are positioned as important clients.

In Other Businesses, the Group has been making efforts to improve its management structure by enhancing the quality of services provided at "Sweetpea", its nursing care facilities located in 6 locations in Yokohama, increasing the number of its residents, and promoting operational efficiency.

In addition, 359 million yen in subsidy income was generated in non-operating income. This was mainly due to subsidies from employment adjustments associated with the spread of COVID-19 infections.

As a result, the results of operations for the period under review are as follows: net sales of 50,442 million yen (down 9.5% year-on-year), operating profit of 1,678 million yen (down 11.5% year-on-year), ordinary profit of 2,005 million yen (up 3.4% year-on-year), and profit attributable to owners of parent amounted to 1,284 million yen (down 1.8% year-on-year).

Based on its policy of putting the safety of its clients and employees as a top priority, the Group has established the "COVID-19 Countermeasures Headquarters" and is conducting business activities that strengthen measures to prevent the spread of COVID-19 infections. Going forward, the Group's business performance is expected to remain firm as the economic activities of clients related to the Company recover and the needs for external human resources resume. On the other hand, in the event of an occurrence where individuals are affected by the virus at its clients, workplaces or nursing care facilities, the Group may be affected.

The results of operations by segment are as follows:

(Human Resources Services Business)

Within the General Human Resources Services Business, the Company carries out manufacturing dispatching and contracting for its manufacturing-related human resources services, general office work dispatching and BPO (Business Process Outsourcing: the outsourcing of operations and processes of specific business-related tasks to a [third-party] specialized company) for its administrative human resources services.

In manufacturing-related human resources services, the core business which accounted for 91.6% of consolidated net sales during the period under review, the Company is making efforts to increase the motivation of manufacturing staff to work, and improve the retention rate by implementing education that enhances added value, including the use of on-line education, etc., as well as its own educational facilities. With the recovery of economic activity in the period under review (October 1, 2020 to December 31, 2020), the number of clients who increased both production and personnel increased, and as a result of efforts to recover the quantity of orders, net sales in the automobiles-related industry improved (down 15.5% year-on-year). In addition, net sales in the electronic devices-related industry increased (up 3.4% year-on-year) due to strong semiconductor-related production

against the backdrop of investments in IT infrastructure. The Group is engaged in business activities on the premise of protecting the employment of manufacturing staff, and although the number of enrolled staff decreased by 2,078 compared to the end of the previous consolidated fiscal year, it has started to increase compared to the end of the previous period under review. Moreover, net sales per capita has also started to increase.

In addition, in the manufacturing-related human resources services during the period under review, although net sales related to Account Company Groups, who are positioned as important clients, decreased (down 14 million yen year-on-year), the net sales share ratio was at 47.1% (which was at 43.3% in the corresponding period of the previous year). Also, the needs of skilled staff, who have a high set of skills and high retention rates, remained strong, and the number of such staff increased by 131 compared to the end of the previous consolidated fiscal year.

However, in the period under review, despite efforts to control expenses such as recruitment expenses, decreases in staff enrollment and net sales were not fully absorbed, resulting in decreased revenue and profits.

As a result, net sales amounted to 48,229 million yen (down 10.1% year-on-year), and operating profit was 1,702 million yen (down 11.0% year-on-year).

(Other Businesses)

The Company operates nursing care businesses for its Other Businesses.

In the facilities nursing care business, which is the core business of this business segment, the number of residents of the nursing care facility, "Sweetpea Higashi Totsuka" increased during the period under review as a result of promoting on-line facility preview events on the premise of preventing the spread of COVID-19 infections, and operating loss decreased compared to the previous period under review. On the other hand, in terms of costs, the cost of sales, such as personnel and operating expenses also increased, and although efforts were made to reduce such expenses, they were not absorbed, resulting in increased revenues and decreased profits.

As a result, net sales amounted to 2,220 million yen (up 7.4% year-on-year), and operating loss was 21 million yen (which was an operating loss of 16 million yen in the corresponding period of the previous year).

(2) Description of Financial Position

(Assets)

Current assets at the end of the period under review amounted to 14,284 million yen, which was a decrease of 1,338 million yen from the end of the previous consolidated fiscal year. This was mainly due to a decrease of 1,339 million yen in notes and accounts receivable (trade).

Non-current assets at the end of the period under review amounted to 7,034 million yen, which was an increase of 162 million yen from the end of the previous consolidated fiscal year. This was mainly due to an increase of 224 million yen in "other" under the investments and other assets category.

As a result, total assets amounted to 21,318 million yen, which was a decrease of 1,175 million yen from the end of the previous consolidated fiscal year.

(Liabilities)

Current liabilities at the end of the period under review amounted to 7,651 million yen, which was a decrease of 1,627 million yen from the end of the previous consolidated fiscal year. This was mainly due to decreases of 72 million yen in income taxes payable and 392 million yen in provision for horuses

Non-current liabilities at the end of the period under review amounted to 1,314 million yen, which was a decrease of 4 million yen from the end of the previous consolidated fiscal year. This was mainly due to a decrease of 103 million yen in long-term loans payable.

As a result, total liabilities amounted to 8,965 million yen, which was a decrease of 1,632 million yen from the end of the previous consolidated fiscal year.

(Net assets)

Total net assets at the end of the period under review amounted to 12,352 million yen, which was an increase of 456 million yen from the end of the previous consolidated fiscal year. This was mainly due to the 1,284 million yen in profit attributable to owners of parent, and 845 million yen in dividends of surplus.

As a result, the equity ratio was at 57.9% (which was at 52.9% at the end of the previous consolidated fiscal year).

(3) Description of Future Forecast Information such as Consolidated Forecasts, etc.

The full-year consolidated forecast announced on November 6, 2020 has been revised.

For details, please refer to the "Notice of Revisions of Full-year Consolidated Forecast and Dividend Forecast for the Fiscal Year Ending March 31, 2021" announced on January 19, 2021.

In addition, the year-end dividend forecast announced on January 19, 2021 has also been revised.

For details, please refer to the "Notice of Revision of Dividend Forecast for the Fiscal Year Ending March 31, 2021 (50th Anniversary Commemorative Dividend)" announced today (Monday, February 8, 2021).

(3) Notes regarding Quarterly Consolidated Financial Statements (Notes regarding the Going Concern Assumption) Not applicable.

(Notes on Significant Changes in the Amount of Shareholders' Equity) Not applicable.

(Additional Information)

(Accounting Estimates Associated with the Spread of COVID-19 Infections)

There are no significant changes to the assumptions, including the timing of the convergence of the effects of COVID-19 infections, as described in the (Additional Information) section of the Notes regarding Quarterly Consolidated Financial Statements for the first quarter consolidated accounting period.

In determining the recoverability of deferred tax assets and determining the impairment loss of non-current assets, the Company assumes that the effects of the spread of COVID-19 infections will continue to gradually recover from the third quarter onwards.
